

The BTS-Tyre Packing Machine was designed for specialized Tyre trading companies. It is the perfect solution for cost-effective second hand tyre business. The Tyre Packing Machine solves space, storage and transport problems. It is easy to pack 2 and more used Tyres into one. Doubling or tripling creates a huge reduction of volume, benefit is more storage and loading space so transport and allowable weight that can be exploited efficient.

BTS-Tyre Packing Machine

- Extreme solid and brass mounted packing slider with grease nipples
- Robust and long-life design
- High performance cylinder
- Ball-bearing roller guides
- Adjustable work height
- Pneumatic quick connectors
- Extremely quiet due to silencer
- CE-certified
- Quality product Made in Germany

	BTS-Tyre Packing Machine
Pressing force	0.125 Ton
Power supply	Air, up to 10 bar / 145 psi
Machine size (H x W x D)	1060 x 1930 x 630 mm
Working height	760 - 880 mm
Machine weight	115 kg
Transportation size	1200 x 800 mm
Transportation height	1200 mm
