

 **McIntyre**
The gold standard in recycling systems

McIntyre 200B
Alligator Shear

McIntyre 200B Shear

Available with or without a stand, this machine might look small but it has a big cutting capacity

Small but powerful

McIntyre's wide experience in hydraulic equipment manufacture has enabled us to build an 8" shear with a staggering cutting force. Although equipped with only an 8" blade, the high shear force and wide tip to tip opening on the McIntyre 200B means that it can deal efficiently with a whole range of non-ferrous cleaning and sizing operations - in particular larger diameter electric cables and valves. In most cases - if your metal will fit into the jaw of the 200B, then this machine will cut it.

Why is this the best for you?

- big cutting force
- wide tip to tip opening
- can be bench or stand mounted
- high capacity

About McIntyre Recycling Systems & Services

McIntyre is the gold standard in recycling systems and services, with 27,000 machines installed worldwide and a reputation for the widest and best-performing range of solutions for metal, waste, cars and aluminium. With scrap metal roots extending back to 1872, we have an unrivalled understanding of the challenges faced by scrap merchants, waste managers, car breakers, manufacturers, foundry managers and others with recycling responsibilities. As a result, the McIntyre name has become synonymous with innovative, problem-solving designs, robust products that deliver the best return on investment, and a knowledgeable, friendly and helpful service.

Technical Data

Machine dimensions:	1130 x 680 x 1360mm
Blade Length:	200mm / 8"
Tip to tip opening:	150mm / 6"
Shearing height:	932mm / 36.7"
Weight with oil:	420kg
Oil capacity:	60 Litres / 13.5 Gallon
Noise Level:	75 +/- 3dBa
Cut control:	Single Cut repeating
Standard Electrical Requirements:	32A / 3ph / 380-145v / 50Hz
Power Rating:	4 kW / 5.4hp
Motor speed:	1430 rpm
Max system Pressure:	220 Bar / 3200 psi
Max Shear force:	65 Tonnes
Fully open cut speed:	8 dry cycle per min
40% Stroke cut speed:	21 dry cycle per min
Cutting Capacity:	42mm (1.65") Round Bar 38mm (1.5") Square Bar

Round Bar

Square Bar
