McIntyre | Datasheet

McIntyre 320

Alligator Shear

McIntyre 320 Shear

The well established 320 Shear is a must for any yard and is now recognised as the industry standard for all shears of this type

Powerful and high quality

One of our most popular shears, the McIntyre 320 Shear has maintained dominance in a demanding market due to its strength, quality and reliability

The 320 is powerful enough to deal with a wide range of cutting and cleaning operations and is able to handle; automotive scrap, whole gear boxes, cylinder heads and blocks, oversized gate valves and of course all the usual non ferrous metal separations. The 320 can also be used to cut ferrous metals.

Why is this the best for you?

- fully CE compliant
- polycarbonate operator viewing points
- robust and reliable
- powerful and long lasting

Technical Data

Machine dimensions: 1460 x 712 x 1322mm

Blade Length: 320mm / 12.5"

Tip to tip opening: 165mm / 6.5"

Shearing height: 910mm / 35.8"

Weight with oil: 680kg

Oil capacity: 200 Litres / 44 Gallons

Noise Level: 75 +/- 3dBA

Cut control: Single Cut repeating

Standard Electrical

Requirements: 32A / 3ph / 380-415v / 50Hz

Power Rating: 7.5 kW / 10hp

Motor speed: 1450 rpm

Max system Pressure: 172 Bar / 2500 psi

Max Shear force: 90 Tonnes

Fully open cut speed: 16 dry cycle cuts per min

40% Stroke cut speed: 41 dry cycle cuts per min

Cutting Capacity: 50mm (2") Round Bar

40mm (1.5") Square Bar

Round Bar

While we make every effort to ensure that our information is correct, technical data is for guidance only and subject to change. If any dimension or performance indication is important to you, please check with us before ordering.
