

McIntyre

The gold standard in recycling systems

McIntyre 500 GT
Alligator Shear

McIntyre 500 GT Shear

The 500 GT is designed for those needing just a bit more blade length without an equivalent increase in price

Versatile

The 500 GT gives customers just a bit more blade length without a big price increase. It is powerful enough to handle most non-ferrous cleaning and sizing operations, and can also be fitted with an optional bracket enabling it to double up as a catalytic converter shear.

Why is this the best for you?

- longer blade length
- 110 Tonne shear force
- optional catalytic converter bracket
- cost-effective

Technical Data

Machine dimensions:	1690 x 712 x 1400mm
Blade Length:	508mm / 20"
Tip to tip opening:	225mm / 8.9"
Shearing height:	934mm / 36.75"
Weight with oil:	990kg
Oil capacity:	200 Litres / 44 Gallon
Noise Level:	78 +/- 3dBA
Cut control:	Single Cut repeating
Standard Electrical Requirements:	32A / 3ph / 380-415v / 50Hz
Power Rating:	7.5 kW / 10hp
Motor speed:	1450 rpm
Max system Pressure:	241 Bar / 3500 psi
Max Shear force:	110 Tonnes
Fully open cut speed:	8 dry cycle cuts per min
40% Stroke cut speed:	21 dry cycle cuts per min
Cutting Capacity:	56mm (2.25") (Round Bar) 45mm (1.75") (Square Bar)

Round Bar

About McIntyre Recycling Systems & Services

McIntyre is the gold standard in recycling systems and services, with 27,000 machines installed worldwide and a reputation for the widest and best-performing range of solutions for metal, waste, cars and aluminium. With scrap metal roots extending back to 1872, we have an unrivalled understanding of the challenges faced by scrap merchants, waste managers, car breakers, manufacturers, foundry managers and others with recycling responsibilities. As a result, the McIntyre name has become synonymous with innovative, problem-solving designs, robust products that deliver the best return on investment, and a knowledgeable, friendly and helpful service.
