

The gold standard in recycling systems

McIntyre 900

Alligator Shear

McIntyre 900 Shear

A reliable workhorse equipped with 920mm (36.25") blades to allow you to handle larger pieces of material with ease

All round yard shear

Designed to give maximum possible blade length without losing cutting capacity, the 900 shear is perfect for a wide variety of yard uses, in particular the handling of larger pieces of non-ferrous scrap. The 900 can be fitted with solenoid control allowing it to be coupled to infeed or outfeed conveyors. Other optional equipment for the 900 shears includes oil-immersed tank heaters, forced air cooling and infeed table to handle oversized material

Why is this the best for you?

- heavy-duty, rugged and reliable
- handles ferrous and non-ferrous metals
- 230 tonne shear force
- wide variety of options

About McIntyre Recycling Systems & Services

McIntyre is the gold standard in recycling systems and services, with 27,000 machines installed worldwide and a reputation for the widest and bestperforming range of solutions for metal, waste, cars and aluminium. With scrap metal roots extending back to 1872, we have an unrivalled understanding of the challenges faced by scrap merchants, waste managers, car breakers, manufacturers, foundry managers and others with recycling responsibilities. As a result, the McIntyre name has become synonymous with innovative, problem-solving designs, robust products that deliver the best return on investment, and a knowledgeable, friendly and helpful service.
