McIntyre | Datasheet

McIntyre 2035

Metal Baler

McIntyre 2035 Metals Baler

An affordable metal baler, powerful enough to match the performance of much larger machines

Strong, powerful, versatile

Don't be deceived by the size of the McIntyre 2035 metal baler. A lid shear force of up to 22 tonnes and a platen force of up to 45 tonnes ensure that this machine has enough power to bale a whole range of non-ferrous metals. Heavy duty, four sided, reversible lid shearing blades make light work of oversized materials and in little more that 30 seconds, the 2035 will produce baled material to the size of 14" x 8" (355mm x 200mm)

Why is this the best for you?

- high performance
- small but powerful
- fully mobile
- rugged and reliable

Technical Data

Machine dimensions: 2405 x 1370 x 1990mm

Chamber opening: 696mm x 355.6mm

(27.4" x 14") L x W

Loading height: 715mm / (28")

Bale Size: 203mm x 355mm x Variable

(8" x 14") x variable

Weight with oil: 1860kg

Oil capacity: 250 Litres / 55 Gallon

74 +/- 3dBA **Noise Level:**

Control: Manual Control

Standard Electrical

Requirements: 7.5kW (10hp)

Power Rating: 32A / 3ph / 380-415v / 50Hz

Motor speed: 1450 rpm

Max system Pressure: 3500 psi / 241 Bar

Max Compression Force: 45 Tonnes

Max Lid Shear Force: 22 Tonnes

While we make every effort to ensure that our information is correct, technical data is for guidance only and subject to change. If any dimension or performance indication is important to you, please check with us before ordering.

About McIntyre Recycling Systems & Services

McIntyre is the gold standard in recycling systems and services, with 27,000 machines installed worldwide and a reputation for the widest and bestperforming range of solutions for metal, waste, cars and aluminium. With scrap metal roots extending back to 1872, we have an unrivalled understanding of the challenges faced by scrap merchants, waste managers, car breakers, manufacturers, foundry managers and others with recycling responsibilities. As a result, the McIntyre name has become synonymous with innovative, problem-solving designs, robust products that deliver the best return on investment, and a knowledgeable, friendly and helpful service.
