

The BTS-MF40 Cans_PET Special Waste Baler with perforator is ideal for compacting difficult and hard materials such as beverage cans and PET bottles. The perforator compaction head pierces empty but also full bottles and cans so air and liquid can escape and in the same process material will be compacted. The Special Waste Baler impresses with its easy operation throughput and large filling volume.

BTS-MF40 Cans_PET

- Solid bales with bale weight up to 40 kg
- Suitable for empty and full cans and PET bottles
- Shorter handling time cause one chamber is always free for loading while the other chamber is compacted
- Perforator compaction head for piercing closed cans or PET bottles so air and liquids can escape
- Roller guided head for ease of movement
- CE-certified
- Quality product Made in Europe
