

CFS AIR SCALDER

The CFS Air Scalding Machine has been designed to scald all types of poultry

- Suitable for soft or hard scalding
- The unique design of air nozzle provides perfect water circulation so the product will be held under water at all times
- A remotely placed control box with an accuracy of 0.5°C controls the water temperature constantly and will supply heating immediately when needed
- Suitable for heating by low pressure steam or hot water
- Models with a wider and deeper construction are available for turkeys
- Fitted with a canopy to reduce heat loss
- Constructed from stainless steel and food grade plastics
