## TECHNICAL DATASHEET

# CNC AXIS DRIVE / LARGE SPINDLE

### Sales Description

This large CNC axis drive spindle originates from a high-precision gantry-type milling machine and has been fully refurbished, including complete replacement of all bearings. With a total length of approximately 367 cm and a robust construction designed for heavy-duty machining, it is ideal for machine builders, retrofit projects, and industrial users seeking a reliable, ready-to-install spindle unit. The spindle is stored in our warehouse in Bavaria, Germany, and is available for immediate delivery.

### Technical Datasheet

#### Product Overview

This large industrial spindle was previously used in a gantry-type milling machine and has been fully refurbished. All bearings have been completely replaced. The unit is stored in our warehouse in Bavaria, Germany.

#### Technical Specifications

Feature	Value
Total length	approx. 367 cm
Spindle section length	approx. 165 cm
Motor section length	approx. 31 cm
Shaft section	approx.
Motor diameter	approx. Ø 400 mm
Weight	Between 250 - 300 kg
Condition	Refurbished - all bearings replaced
Former Application	Gantry-type Milling Machine
Location	Germany (Warehouse in Bavaria)

#### Notes

Fully refurbished industrial spindle suitable for heavy-duty CNC applications.
Ideal for machine builders, retrofits, or spare-part replacement.
Dimensions based strictly on provided information.
