## TECHNICAL DATASHEET

### Pro-face FP3710-T41 (Model 3580406-01)

The **Pro-face 3580406-01 (FP3710-T41 series)** is a robust industrial 15-inch TFT color monitor equipped with integrated touchscreen functionality. As part of the proven FP3000 series, this unit is designed to serve as a reliable display and operator interface for industrial PCs and programmable logic controllers (PLCs).

Engineered for demanding industrial environments, the FP3710-T41 offers excellent visual clarity, intuitive touch operation, and long-term durability. Its combination of a compact form factor and high-quality display makes it suitable for a wide range of automation and control applications.

#### 1. General Information

|              |  |
|--------------|--|
| Manufacturer | Pro-face   |
| Model        | 3580406-01   |
| Series       | FP3710-T41 (FP3000 Series)                           |
| Device Type  | Industrial TFT Color Monitor with Touchscreen        |
| Screen Size  | 15-inch  |
| Application  | HMI / Display unit for Industrial PCs or PLC systems |
| Condition    | Used – good visual condition (see photos)            |
| Availability | Available ex warehouse – subject to prior sale       |

#### 2. Technical Specifications

|               |   |
|---------------|---|
| Display Type  | TFT Color LCD   |
| Touchscreen   | Resistive Touch Panel   |
| Resolution    | To be confirmed from nameplate                                  |
| Power Supply  | AC 100–240 V (see nameplate)                                    |
| Frequency     | 50/60 Hz  |
| Interfaces    | VGA, DVI, Serial (DB9), USB, Industrial connectors (see photos) |
| Mounting Type | Panel mount   |
