TECHNICAL DATASHEET CNC AXIS DRIVE / SMALL SPINDLE

Sales Description

This compact CNC spindle unit comes from a precision milling machine and has been fully refurbished, including complete replacement of all bearings. With a total length of 221 cm and a robust construction designed for reliable industrial use, it is ideal for machine builders, retrofit projects, and users seeking a ready-to-install spindle for small to medium CNC applications. The spindle is stored in our warehouse in Bavaria, Germany, and is available for immediate shipment.

Technical Datasheet

Product Overview

This industrial spindle was previously used in a milling machine and has been fully refurbished. All bearings have been completely replaced. The unit is stored in our warehouse in Bavaria, Germany.

Technical Specifications

Feature	Value
Total length	approx. 221 cm
Spindle section length	approx. 97 cm
Motor section length	approx. 32.5 cm
Shaft section	approx. 92 cm
Motor diameter	approx. Ø 400 mm
Weight	approx. 150 kg
Condition	Refurbished – all bearings completely replaced
Former Application	Milling Machine
Location	Germany (Warehouse in Bavaria)

Notes

Fully refurbished spindle suitable for small to medium CNC applications
Ideal for machine builders, retrofits, or spare-part replacement.
