Technical Datasheet

CNC AXIS DRIVE / LARGE SPINDLE

[IBA-1002] - Sales Description

This large CNC axis drive spindle originates from a high-precision gantry-type milling machine and has been fully refurbished, including complete replacement of all bearings. With a total length of approximately 367 cm and a robust construction designed for heavy-duty machining, it is ideal for machine builders, retrofit projects, and industrial users seeking a reliable, ready-to-install spindle unit. The spindle is stored in our warehouse in Bavaria, Germany, and is available for immediate delivery.

Technical Specifications

| Feature | Value |
|------------------------|-------------------------------------|
| Total length | approx. 367 cm |
| Spindle section length | approx. 165 cm |
| Motor section length | approx. 31 cm |
| Motor diameter | approx. Ø 400 mm |
| Weight | approx. 250 – 300 kg |
| Condition | Refurbished – all bearings replaced |
| Former Application | Gantry-type Milling Machine |
| Location | Regensburg / Germany |
